Features 12 - 15m³

Capacity

- 12m³ and 15m³ of pit silage.
- 4 round bales. (1.2m long)
- 6 medium square bales.

Features

- Two double acting hydraulic remote connections required from your tractor.
- Multi function joystick for finger tip control.
- Maintenance free hydraulically driven reduction box driving cross floor.
- Elevator fully adjustable from 15 to 90 degrees of tilt.
- Ability to feed into troughs or over fences.
- Controlled placement of product gives ideal feed patterns on all feed types.
- Reliable hydraulic cylinder driving tail door forward and back.
- Sprung tail door to allow rear loading of bales.
- Both feeder and loading compartment are on the same level preventing bales from tipping over when bringing bales forward into the feeder section.
- Robust tandem axles with greasable bronze pivot bushes.
- Offset axle pivot allowing the front tires to carry less weight for better performance on soft ground and when turning.
- Wheel hubs fitted with shields to protect seals from hay and twine.
- Roller feed chains driving 50mm x 50mm battens.
- Anti-skid adjustable leg on tow bar.
- Side elevator is reversible.
- String rail along side.
- Fully sandblasted and painted with 2 pack Urethane.
- Heavy Duty 22.5 tyres 12.5/80/15.5
- Weight = 3300 kg.
