

SCARLETT MANUAL SORTING CONVEYOR

SMSC 8

UNBEATABLE
VALUE

Scarlett Manual Sorting Conveyor (Eight Station)

Customisable manual sorting conveyor. The in-feed pit allows trucks to dump directly onto the in-feed conveyor. Minimising processes and equipment. Optional steel sorting magnetic conveyor attachment.

The conveyor can be ordered at any length to suit the number of work stations required.

Forklift compatible sorting bins, allowing easy manoeuvrability and transportation of recyclables ready for baling.

Manufactured to the highest standards by New Zealand's leading waste equipment supplier B J Scarlett Ltd
